

Label the following items on your map of India using the links from the web quest.

- Title your map – your title should include these words: India, Map, Physical,
- Compass Rose – in lower left corner
- Indian Ocean
- Arabian Sea

Draw and Label the following items on your map of India using the links from the web quest

- Indus River 
- Himalayas 
- Hindu Kush 

India is part of the continent of \_\_\_\_\_. India is very big though, and often considered to be a \_\_\_\_\_. It is separated from the rest of Asia by 2 ranges of mountains the \_\_\_\_\_ and the \_\_\_\_\_.

The Indus River gets most of its water from melting \_\_\_\_\_. As this water runs down from the mountains it picks up fertile \_\_\_\_\_ which it deposits in the river valleys when the rivers flood.

Additional rain comes after a seasonal shift of the wind patterns called \_\_\_\_\_. These winds bring in both wet and dry seasons
